Support Workers

DELIVER CULTURALLY RELEVANT SERVICES

Meaningfully engage with culturally and linguistically diverse (CALD) clients and communities with Multicultural Australia's Cultural Support Services.

Our cultural support workers have the language, knowledge, skills and cultural intelligence to help your organisation strengthen relationships with our growing number of multicultural communities in Queensland.

With language and cultural support, you'll gain a better understanding of the unique needs of your customers, and build trust with communities who have experienced barriers in accessing and engaging with your services. It's also a great opportunity to partner with us to build a society with improved access to opportunities and outcomes.
